ARPA

----- Sub: Attendance of ARPA Rep at COR Progress Mtgs.
Wm Burke to RMB (A/C-DPD to DD/P) COR-0487 10 Jun 59
ARPA individual and group review groups causing troubles by
visiting BMD and issuing directives based on poor understanding
of payload problems caused issuance of an invitation for
a "reasonable and objective ARPA representative" to attend the
monthly CORONA meetings.

Dr. Golovin was the choice, although Col. Sheppard felt
it was only desirable from the payload point of view, not
from that of the vehicle or ground environment aspect.

RMB approved use of Golovin as point of contact with ARPA.
